[jakub@skyforge.dev](mailto:jakub@skyforge.dev)

## EXPERIENCE

### **PROTH!NX, Berlin** — *Freelance Platform Engineer*

January 2024 - Present

- Implement Infrastructure as Code (IaC) using Terraform to automate the provisioning and management of cloud resources.
- Manage Cloud Infrastructure: Set up and maintain cloud environments using Microsoft Azure to meet clients' needs.
- Deploy Kubernetes Clusters: Use Azure Kubernetes Service (AKS) to deploy and manage containerized applications.
- Optimize Performance and Costs: Monitor cloud resources to ensure they run efficiently and stay within budget.
- Collaborate with Teams: Work with developers and other stakeholders to deploy and integrate applications smoothly.
- Ensure Security: Implement security measures to protect cloud systems and data.
- Provide Support: Troubleshoot and resolve any issues related to the cloud infrastructure and deployments.
- Stay Updated: Keep up with the latest Azure and AKS features to continuously improve the platform services

### **HDI TH!NX, Berlin** — *Freelance DevOps Engineer*

January 2020 - December 2023

- Continuously spearhead daily DevOps operations, optimizing continuous integration and deployment pipelines to ensure efficient software releases.
- Actively architect and manage the comprehensive AWS infrastructure using Terraform, upholding scalable, secure, and cost-effective cloud solutions.
- Regularly implement and refine monitoring solutions, proactively identifying and mitigating system and application anomalies.
- Consistently provide round-the-clock on-call support, guaranteeing uninterrupted service and immediate resolution of emergent issues, maintaining system uptime and reliability.

### **5CA, Netherlands** — *Technical Team Lead, Tier 2 Support - Epic Games Client*

August 2018 - December 2019

- Spearheaded the training of several hundred support agents

## SKILLS

Terraform, Kubernetes, Ansible, AWS Stack, Azure Stack, Google Cloud Stack, Linux, Networking, bash scripting, python, React, nodeJS, Windows Server, vSphere, Proxmox, Citrix XenServer

## LANGUAGES

Polish (Native)

English (Fluent)

using comprehensive documentation crafted personally, ensuring consistent and high-quality support delivery.

- Expertly resolved high-risk fraud cases, mitigating potential damages amounting to thousands of dollars.
- Collaborated extensively with Epic Games' engineering teams to ensure seamless issue resolution and process improvement.
- Oversaw Tier 2 technical support operations, guaranteeing timely and effective solutions to complex issues.

## **Bdonotify.me — SRE / SysAdmin**

December 2017 - March 2019

- Engineered and launched a sophisticated notification application designed for in-depth market analysis of the MMORPG game, Black Desert Online.
- Leveraged VMware to seamlessly run the game client, ensuring optimal performance and uptime.
- Innovatively employed heavy OCR with NodeJS, capturing intricate market data with precision and efficiency.
- Orchestrated a robust infrastructure on Google Cloud Platform (GCP), effectively managing both backend and frontend operations to ensure seamless user experience and high availability.
- Oversaw end-to-end automation and system management, ensuring streamlined processes and consistent system optimizations.

## **Freelance Consulting — SysAdmin / SRE / DevOps Engineer**

December 2016 - PRESENT

- Build and Manage Systems: Design and maintain IT infrastructure to meet clients' needs.
- Handle Hardware and Cloud: Manage both physical servers and cloud services, using the latest technologies to keep systems efficient and secure.
- Provide Support: Offer ongoing help and fix any issues quickly to minimize downtime and keep systems available.
- Stay Updated: Continuously learn about new tools and best practices to improve clients' systems and operations.
